

Bharat Heavy Electricals Limited
(Govt. India Undertaking)
Power Sector – Southern Region
Bellary Thermal Power Project
Kudathini – 583 152 (Bellary District)

To whom so ever it may Concern

It is to certify that 1X700MW Bellary Thermal Power Project at Ballari of Karnataka Power Corporation Ltd., is EPC contract to BHEL. The land of this project is rocky terrain.

We are adopted Marconite Conductive Concrete technology for around 100Nos treated earth pits of the mentioned power project. The Marconite conductive concrete earth pits design was approved by our engineering group PEM, Noida & our client Karnataka Power Corporation Ltd., and we could able to achieve the desired earth resistance as per our client's requirement.

Material and technical support for application of Marconite Conductive Concrete for this project is being extended by M/s Inter-Tech, New Delhi to our electrical sub-contractor i.e M/s KSL Technocrats.

Date : 21/03/2016

Place: Ballari
