Ecoleaf Energies Private Limited, is engaged in installing rooftop top solar plants in India and have executed several plants in the past.

This is to confirm that since 2018, we outsourced our requirement of earth electrodes for following rooftop solar projects to INTER TECH, New Delhi:

- 1) ICICI Bank Noida - 50 KWp
- 2) ICICI Bank Silvassa - 30 KWp
- 3) JMIT (Engg College) Radaur – 50KWp
- 4) Mukand Lal Public School, Yamuna Nagar – 62.5KWp
- 5) Mukand Lal National College, Yamuna nagar – 33KWp
- 6) JMIETI (Engg College) Radaur – 55KWp
- 7) Vidyavati Girls College, Ghaziabad – 25KWp...**and many more**

INTER TECH team extended the required technical support with respect to designing and installation of Marconite based earthing solutions, with performance warranty of 25 years, to our client's satisfaction.

We wish to further confirm that switch over from Bentonite based earthing to conductive aggregate Marconite has added value to our deliverables and we recommend Marconite to all our prospective buyers.
